

Contribution to Climate Protection

08.12.2021

STORYFACTURING | BEN KUNSTLEBEN

Offsetting for 2.3 t CO₂
with a value of EUR 56.00

Donation of EUR 8.00

This contribution to climate protection is having a real impact!

Support the reforestation project in Nicaragua, the second-poorest country in the western hemisphere. Small-scale farming families are reforesting unused sections of their land with native species. The programme combines practical nature conservation with the creation of new income sources for local families.
